

WP Haton
Dough Friendly Company

PARTA U XL® POWER INSIDE

PARTA U XL

The PARTA U has been a reference in dough dividing for over half a century. The principle with rotating measuring chamber has proven itself over and over again in each part of the world! We now have added its big brother to our range of dividers: the PARTA U XL. This gives you all the benefits of the PARTA U at capacities up to 4380 pieces per hour!

The user friendly PARTA U XL 3 pocket dough divider, is suitable for all kind of doughs. The round neck hopper has a standard size of 120 litres, bigger sizes are available as option.

Dough pieces are transported sideways and the whole dividing process takes place in a very dough friendly manner.

Maximum optimization to batch sizes with various different hopper sizes and modification to individual wishes are possible.

The PARTA U XL has a modern design, the hopper, and also all parts coming in contact with dough, are quick and easy to clean.

The PARTA U XL treats the dough very gentle!
